

Bundamba State Secondary College Flexispace Refurbishment

arete worked closely with the Department of Education and Honeywill to deliver a safe, inviting new space for the students of Bundamba State Secondary College. The Department of Education are implementing 'Flexispaces' in over 50 schools, across Australia by 2022 with the aim to engage as many students as possible, creating an inclusive, high quality and bespoke learning environment for students who are at high risk of disengaging.

The Flexispace at Bundamba State Secondary College extends off the existing library building where we've converted two classrooms into one large space, complete with all new flooring, elevated stage, acoustic ceiling and wall panels, additional storage and large floor to ceiling whiteboards. The existing outdoor courtyard was also demolished including landscape removal to make way an extended multi-use area consisting of new concrete slab, enclosed colourbond and polycarbonate roofing, large stacker glass doors, air conditioning and kitchen facilities.
