

Deakin University Building P Backlog, Burwood

arete Australia successfully delivered the Building P Back-Log project at Deakin University in conjunction with the Building P Media and News Room project. This refurbishment primarily focuses on spaces dedicated to news, broadcast, and media activities.

The scope of work included comprehensive painting, flooring replacements, studio upgrades, and the replacement of joinery elements. Given the varying timelines for each area, effective site management was essential to ensure the project was completed on schedule and with maximum efficiency.

This project enhances the functionality of Building P, providing modernised facilities that support Deakin University's commitment to media and communication excellence.
