

## RMIT College of Business Growth Building 88 Level 3

arete Australia collaborated with RMIT University, H2o Architects, and Lucid Consulting to deliver the College of Business Growth Fitout project. Situated on Level 3 of RMIT Building 88, this initiative involved a comprehensive refurbishment and fitout to create dynamic new office accommodation for academic and research staff.

The transformed space now features modern open-plan offices, dedicated collaborative areas, versatile meeting rooms, private offices, and an executive meeting room that can double as a classroom. To support these functions, the project included a full services strip-out and the installation of extensive new mechanical and electrical systems, a dedicated communications room, and upgraded fire services. A convenient kitchenette area further enhances the everyday usability of the space.

This refurbishment ensures that RMIT's College of Business professionals are well-supported in an environment designed to foster productivity, engagement, and innovation.
