

Swinburne University Graduate School of Entrepreneurship

arete Australia was selected by Swinburne University to deliver a long-anticipated upgrade to the Australian Graduate School of Entrepreneurship. The project involved over 1,700m² of cutting-edge tertiary fitout across two levels of live teaching and administration space.

This multi-stage project included the full demolition and refurbishment of office spaces on Level 1 and teaching facilities on Level 2. The upgrade enhanced both teaching and office environments, introducing a state-of-the-art lecture theatre and innovative new meeting and breakout space pods.

Level 1 was transformed into open-plan teaching spaces with flexible partitioning and operable wall systems, as well as the creation of four breakout pods. On Level 2, offices and the lecture theatre were fully reconfigured, featuring advanced AV technology and upgraded services throughout. This redesign delivered a modern, dynamic learning environment that supports Swinburne's commitment to excellence in education.

The project reached Practical Completion in mid-2017.
