## University of Melbourne School of Engineering, Building 176

arete were engaged by the University of Melbourne to undertake the Melbourne School of Engineering Level 3 Building 176 fitout, at their Parkville Campus. This floor is now used as a student workspace and has become the prototype for future fit outs of the remaining levels.

This fitout consisted of large collaborative spaces with offices running down the centre of the floor plan. The space is complimented by a vast joinery package with hand laminated timber veneer finishes and wall panelling to match.

The floor was crowned with American oak furniture and beautiful Corian bench tops to the breakout spaces.
