Box Hill Institute Lilydale Lakeside Campus Building LB

In 2016, arete Australia partnered with Box Hill Institute of TAFE and the Victorian Government to construct Victoria's first state-of-the-art Technology, Discovery and Innovation Centre.

This groundbreaking facility features Virtual Reality Rooms, Robotics Rooms, Scenario Rooms, and Maker Space Rooms, designed to enable revolutionary teaching practices. The centre's cutting-edge functionality is matched by its striking aesthetics, setting a new standard for educational spaces.

arete transformed Level 2 of Building HE into the new Student Central area at Deakin University's Burwood Campus. This flagship project showcases seamless integration of front and back-of-house services, including the innovative Ask Watson desk for enhanced student consultations. The space features upgraded service zones with private and semi-private consultation points, meeting rooms, offices, and refurbished staff areas.

Completed in just two months, this project sets the benchmark for future Deakin University developments, offering students a fresh and dynamic experience.
