arete Australia has quietly built a reputation for delivering highly complex interiors, fitouts and refurbishments.

With offices in Victoria and Queensland, our team has worked on over 290 projects, delivering 330,000sqm across the two states. We have applied our expertise to the education, health, aged care, government, commercial office and base building, hotel and hospitality sectors, delivering impeccable quality on schedule and budget.

As a division of Kane Constructions, we benefit from the financial strength, corporate governance and stringent management systems that this industry leader has refined over its 45+ years of operation.

EXPERIENCED SPECIALISTS

Our success has been built on the dedication, specialist skills and work ethic of our diverse team.

Each member is highly regarded within the industry for an ability to deliver projects of complexity and breadth.

We are also known for being proactive and reactive; we anticipate potential problems and quickly respond to any challenge that may arise.

WELL-BUILT RELATIONSHIPS

Our strong and ongoing relationships with our clients are testament to our commitment and reliability, as much as the exceptional quality of our work.

Through a collaborative and consultative process, we endeavour to understand each client's needs. We then set about creating bespoke solutions that meet design goals, timeframes and budgets.

DEFINING CULTURE

The workplace ethos at arete is one of cooperation, invention and transparency. It defines everything we do, from how we engage with staff to the relationships we build with our clients.

We thrive in a hard-working, collaborative and agile culture. We're dedicated to problem solving and refining our practices. Put simply, we go about what we do, and let our results speak for themselves.

Strength and Security

As a division of Kane Constructions, arete Australia benefits from their financial strength.

Annual turnover in excess of \$1 billion.

Projects in the \$1 million to \$250 million value range.

Able to maintain a bank guarantee and bonding facilities of \$80m + \$30m bonding facility from Vero.

Total assets exceeding \$150 million with a security facility to cater for well over \$1.03 billion of work under construction.

Cabrini Palliative Care Level 4, South Block

arete were engaged by Cabrini Health to assist them with the refurbishment and fit-out of their existing Level 4 South Block Palliative Care Ward from a 4 × 4 bedroom to a single, private 6 bed room with ensuite and modernised technology to extend their service offering to their patients.

Stringent infection control procedures along with strict Covid-19 management plan were followed to ensure there were minimal risk to staff and patients from construction contaminates being carried to other areas of the hospital, whilst works were being

carried out in a live environment.

The elaborate expansion mirrored the construction specification of the newly built Gandel Wind (Built by Kane Constructions), which added value in the installation of high end fixtures and fittings for the client. The expansion also included installation of challenging Mechanical, Electrical, AV, Nurse call and Medical Gas works, along with the installation of floor to ceiling vinyl.

Monash Health Electrical Upgrade works

arete were engaged as principle contractors to complete the Monash Medical Centres Electrical Upgrade. The electrical upgrade now spans throughout level 1 of the Monash Hospital in Clayton. The main portion of the project consisted of services upgrades, including complete fire services upgrade for both the mist fire system and the rest fire system. The upgrade took place across 5 different departments within the medical centre.

Monash Children's Hospital, Imagination Tree

arete were engaged as principle contractors to build an Imagination Tree for Monash Children's Hospital on behalf of Monash Health. The Monash Imagination Tree spans four levels (levels two to five) inside the hospital. The Monash Imagination Tree is designed to be a sanctuary to connect young patients and guests, and promote healing through the sharing of magical moments.

With design inspiration from World leading companies, the second floor offers plenty of space to run, hide and play collaborative games with friends. Patients & guests can then gather on the third floor to read storybooks. The fourth floor canopy offers crafts and interactive play, while the fifth floor provides a relaxing lounge to sit back and watch the sky change from day to night.

Austin Health Angiography Pre-works

arete completed the Angiography pre-works project for Austin Health, which was delivered in 3 stages.

Pre-works stage 1: Radiology ED, Level 1, Austin Tower, Austin Campus. The works include modifying existing change rooms to include a wheelchair bay, and installing two new workstations with joinery.

Pre-works stage 2 and 3: Radiology Department, Level 2, Lance Townsend Building. These works have been divided into two stages. The first stage propose to

demolish a redundant equipment storage area, wheelchair trolley bay, 3 offices and a small sterile store. It is proposed to build a Sterilizing Room, Clean up room, Interview room, larger Sterile Stock room and an Unpacking area. A new nurse base will also be installed in the Admissions and Recovery area. The last stage proposes to construct a new plant room and general store.

Royal Melbourne Hospital PET / CT Scan Expansion

arete worked with The Royal Melbourne Hospital to complete their PET / CT Expansion project, a 560m² internal fit out for the Hospitals Nuclear Medicine Department. This department has seen rapid growth in recent years and identified the need to expand their PET / CT services to cater for their immediate patients and the wider community.

PET is used routinely for the staging, treatment selection, planning and therapeutic response assessment for many cancer types; however, PET / CT is

also expected to have an increasing role in clinical cardiology and other systemic diseases.

The new facility included: General Administration and reception area, waiting area, staff space, general offices, waste room, medical store room, four Patient Uptake Rooms (shielded), one Hot Lab (shielded), one PET / CT Scan Room (shielded), one Equipment Room, one Control Room, Discharge Waiting Area (shielded), Patient W/C (shielded) and Public W/C.

Craigieburn Medical and Dental Centre

The Craigieburn Medical and Dental Centre project was the fitout of the newly built structure for an all encompassing Mega Medical and Dental Clinic.

Included in the works were Medical and Consulting suites, X-Ray and Imaging, Pathology, Physiotherapy, Independent receptions, Treatment Areas, Meeting Rooms, Public and Staff toilets, Pharmacy and a complete Dental Clinic.

The project required experienced trades in the Health Sector including specific Data and

electrical requirements, Nurse Call, Security, Medical Gases, and Specific Hygiene required finishes and tests, Acoustic Requirements, Lead Lining and Nuclear protection for Imaging.

The project was also an identified Green Star Project with all elements of the construction and finishing phase incorporating minimal requirements to achieve this. arete targeted specific areas here, which resulted in some more expensive options not being required to achieve the accreditation.

Austin Heath Harold Stokes Building
Pathology Laboratory

Austin Pathology fitout was a staged fitout to serve the growing needs of the Pathology Department located at Austin Hospital in Heidelberg's Harold Stokes Building. The project saw the expansion of office space for the laboratory staff as well as the establishment of new meeting rooms, reception and management spaces.

Stage 1 was the fitout of a disused section of the building alongside the existing Pathology space and upon completion to manage the relocation of approximately 20 staff members.

Stage 2 was to demolish and fitout the existing office space into new functional office and meeting rooms for the remaining 10 staff members.

Japara Windsor Minor Works

The Japara healthcare project involved the renovation of 126 aged care rooms including bathrooms, kitchens and communal living spaces. The fundamental goal being, to complete all refurbishments whilst neighbouring rooms remained occupied by residents.

arete worked with management to ensure there would be as little intrusion on the residents and their guests as possible, whilst the project progressed.

Noisy works in the building were kept to a minimum, with all cutting and loud fabrication conducted away from site, further reducing the impact on residents. A focus on resident satisfaction was key to the successful completion of these works.
